NOTE 1 CORPORATE INFORMATION

Wolverine Minerals Corp. (the “Company”) was incorporated on June 7, 2004 in British Columbia, and its business is the acquisition, exploration and development of mineral properties. The Company is listed on the TSX Venture Exchange (the “TSX-V”). The address of the Company’s corporate office and principal place of business is Suite 1085, Bentall Two, 555 Burrard Street, Vancouver, British Columbia, Canada V7X 1M8.

The address of the Company’s corporate office and principal place of business is Suite 1085, Bentall Two, 555 Burrard Street, Vancouver, British Columbia, Canada V7X 1M8.

NOTE 2 INTERIM FINANCIAL INFORMATION

The financial information as at June 30, 2017, and for the three and six month periods ended June 30, 2017 and 2016, is unaudited. However, in the opinion of management, all adjustments necessary to present fairly the results of these periods have been included. The adjustments made were of a normal recurring nature. Interim results may not necessarily be indicative of results anticipated for the balance of the 2017 fiscal year. These financial statements should be read in conjunction with the December 31, 2016 year-end audited financial statements.

NOTE 3 BASIS OF PREPARATION

a) Statement of Compliance

These unaudited condensed interim consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), including International Accounting Standard 34 – *Interim Financial Reporting*, and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The financial statements were authorized for issue by the Board of Directors on August 28, 2017.

b) Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis.

The consolidated financial statements are presented in Canadian dollars. The functional currency of each entity is measured using the currency of the primary economic environment in which the entity operates. The Company’s functional currency is the Canadian dollar.

The preparation of these consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates and exercise judgment in applying the Company’s accounting policies. As a precise determination of many assets and liabilities is dependent upon future events, the preparation of consolidated financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment. Actual results may differ from these estimates. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to these consolidated financial statements see Note 4.

The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in the Company’s audited financial statements for the year ended December 31, 2016.

WOLVERINE MINERALS CORP.
(AN EXPLORATION STAGE COMPANY)
CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
For the three and six months ended June 30, 2017 and 2016

NOTE 3 BASIS OF PREPARATION – (cont'd)

c) Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and its Mexican subsidiary (Explorations Aloro SA DE CV).

d) Going Concern

These consolidated financial statements have been prepared assuming the Company will continue on a going-concern basis. At June 30, 2017, the Company had not yet achieved profitable operations, has a working capital deficit of \$ 112,492 (December 31, 2016 surplus \$46,789), has an accumulated deficit of \$17,364,371 (December 31, 2016 \$17,184,361) and expects to incur further losses in the development of its business. These conditions indicate the existence of a material uncertainty, which casts significant doubt about the Company's ability to continue as a going concern. The continuing operations of the Company are dependent upon economic and market factors which involve uncertainties including the Company's ability to raise adequate equity financing for continuing operations. Realization values may be substantially different from carrying values as shown and accordingly these consolidated financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these consolidated financial statements.

NOTE 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These interim condensed consolidated financial statements have been prepared using the same accounting policies and methods of computation as the annual financial statements of the Company for the year ended December 31, 2016. Accordingly, the interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2016.

NOTE 5 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. These interim condensed consolidated financial statements have been prepared using the same estimates and judgments as used in the preparation of the annual statements and should be read in conjunction with the audited financial statements for the year ended December 31, 2016.

NOTE 6 COLOMBIAN ROYALTY

On December 23, 2015, the Company sold its Colombia interests (the Remedios Subsidiaries) and in consideration for sale of the issued and outstanding shares of the Remedios Subsidiaries, the purchaser assumed all liabilities of the Remedios Subsidiaries. In addition, the purchaser granted the Company a 3.0% net smelter royalty ("NSR") on the minerals that may be produced from the mineral properties held by the Remedios Subsidiaries. The purchaser is entitled to repurchase the 3% NSR royalty from the Company at any time for US\$700,000. The Company has estimated the fair value of the NSR royalty to be nominal.
